

Mark Anthony Recio

ID: e787c747-87b0-4f6f-b7bb-59b6410207ad

Birth Date: 4 April 1973

Email: recio.mark.a@gmail.comProfile: www.credly.com/users/mark-recio**National Career Readiness Certificate (NCRC) Silver**

Issued by: ACT

Issued to: Mark

Issued on: 9 February 2023

Description: Silver NCRC earners have validated their essential foundational workplace skills by scoring at the silver level on ACT's WorkKeys Applied Math, Graphic Literacy, and Workplace Documents assessments. Earners have demonstrated they have the foundational skills needed for 71% of the jobs identified in the Department of Labor's O*NET database. The NCRC is an industry-recognized, portable, evidence-based credential. A detailed description of what an earner can do is available at [Learn More](#).

**American Council on Education**

Course Number: ACTI-0001 (v.4) silver Total Credits: 2 Grade: Pass

Credit Recommendation:

- 1 semester hour in Technical Mathematics in the vocational category
- 1 semester hour in Introduction to Information Literacy in the vocational category

**Google Data Analytics Professional Certificate**

Issued by: Coursera

Issued to: Mark Recio

Issued on: 7 June 2023

Description: Those who earn the Google Data Analytics Certificate, developed by Google, have demonstrated their competence in foundational data analysis. Through hands-on activities and assessments, graduates develop proficiency in preparing, processing, analyzing, and sharing data using tools and platforms including spreadsheets, SQL, Tableau, and R, preparing them for introductory-level roles in data analytics.

**American Council on Education**

Course Number: GOOG-0004 (v.1) Total Credits: 12 Grade: Pass

Credit Recommendation:

- 3 semester hours in introduction to databases in the lower-division undergraduate category
- 3 semester hours in introduction to SQL programming in the lower-division undergraduate category
- 3 semester hours in introduction to systems analysis in the lower-division undergraduate category
- 3 semester hours in introduction to R programming in the lower-division undergraduate category

IBM Data Analyst Professional Certificate

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mark Recio

Issued on: 10 December 2023

Description: This credential earner has demonstrated proficiency in applying different analytical techniques by analyzing real-world datasets, creating visualizations & interactive dashboards, and presenting reports to share findings of data analysis, and is now equipped with skills for an entry-level role in data analytics. The earner has successfully completed 9 courses in Data Analytics and gained hands-on experience with data analysis tools, including Excel, SQL, Databases, Python, JupyterLab and Cognos.

FIBAA

Total Credits: 6 Grade: Pass

Credit Recommendation:

- 6 semester hours

American Council on Education

Course Number: IBM-0018 (v.1) Total Credits: 12 Grade: Pass

Credit Recommendation:

- 3 semester hours in introduction to data analytics in the lower-division undergraduate category
- 3 semester hours in introduction to SQL programming in the lower-division undergraduate category
- 3 semester hours in introduction to Python programming in the lower-division undergraduate category
- 3 semester hours in advanced topics in data analytics in the upper-division undergraduate category

IBM Data Science Professional Certificate (V3)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mark Recio

Issued on: 8 April 2026

Description: The badge earner demonstrated career readiness in data science. They showed proficiency in Python app development with common data science libraries such as SciPy, Pandas, and NumPy while managing data with SQL and relational databases. They adeptly apply data and statistical analysis techniques by constructing machine learning models and present their findings using Jupyter notebooks. They can competently train, test, evaluate, and refine machine learning models using Generative AI techniques.

FIBAA

Total Credits: 6 Grade: Pass

Credit Recommendation:

- 6 semester hours

American Council on Education

Course Number: IBM-0017 (v.3) Total Credits: 12 Grade: Pass

Credit Recommendation:

- 3 semester hours in Advanced Topics in Data Science in the upper-division undergraduate category
- 3 semester hours in Introduction to Machine Learning in the lower-division undergraduate category
- 3 semester hours in Introduction to Data Visualization in the lower-division undergraduate category
- 3 semester hours in Introduction to Data Science in the lower-division undergraduate category

Business Intelligence Foundation Professional Certification - BIFPC™ !

Issued by: Certiprof

Issued to: Mark Recio .

Issued on: 9 November 2023

Expires on: 9 November 2026

Description: Earners of the BI Foundation Professional Certification have a basic knowledge of Business Intelligence. They can know the History, Implementation Process, Architecture, and type of BI Analysis. They can understand business intelligence concepts and how you can develop visualizations and data knowledge to make better business decisions.

Lean Six Sigma White Belt Professional Certification - LSSWBPC !

Issued by: Certiprof

Issued to: Mark Recio .

Issued on: 9 November 2023

Expires on: 9 November 2026

Description: Lean Six Sigma Professional Certification holders have the skills and abilities to understand the basic statistic concepts related to Six Sigma and its ideas. They also appreciate the DMAIC steps and how to use the essential quality tools in its cycle.

Lifelong Learning

Issued by: Certiprof

Issued to: . .

Issued on: 9 November 2023

Description: This badge has been issued to the candidates who have demonstrated their unwavering commitment to lifelong learning, which is vitally important in today's ever-changing and expanding digital world. It also identifies the qualities of an open, disciplined, and constantly evolving mind, capable of using and contributing knowledge to develop a more equal and better world.

Data Analytics Essentials

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mark Recio

Issued on: 16 November 2023

Description: This badge earner has demonstrated a foundational knowledge of Data Analytics. The individual can explain what is Data Analytics, list the key tools and technologies within the data ecosystem, and has a conceptual understanding of the data analysis lifecycle. The badge earner is also able to describe the technical and soft skills required to become a successful data analyst.

Excel Essentials for Data Analytics

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mark Recio

Issued on: 22 November 2023

Description: This badge earner has demonstrated a foundational knowledge of using Excel spreadsheets for Data Analysis. The individual can perform basic spreadsheet tasks for entering and formatting data, create formulae, prepare and wrangle data for analysis, and create pivot tables. The badge earner has also demonstrated ability to work hands-on with Excel and complete an exploratory Data Analysis project.

Python Project for Data Science

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mark Recio

Issued on: 29 November 2023

Description: This badge earner demonstrates foundational Python skills for working with data. This includes: understanding the role of a Data Scientist / Data Analyst; applying Python fundamentals, working with Python data structures, and working with data in Python; and how to build a dashboard using Python and popular Python libraries using Jupyter notebook.

[Data Visualization with Python](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mark Recio

Issued on: 5 December 2023

Description: This badge earner has a good understanding of what data visualization is, uses of data visualization, and best practices when creating plots and visuals. The individual has the skills to use different Python Libraries, mainly Matplotlib and Seaborn to generate different types of visualization tools such as line plots, scatter plots, bubble plots, area plots, histograms, and bar charts. The earner is able to use the Folium library to visualize geospatial data and to create choropleth maps.

[SAS Visual Business Analytics Professional Certificate](#)

Issued by: [Coursera](#)

Authorized by: [SAS](#)

Issued to: Mark Recio

Issued on: 11 April 2024

Description: Using SAS Visual Analytics, learners access and manipulate data, analyze data with a variety of interactive reports and graphics, and design and share dashboards to visualize data. SAS Visual Analytics is a useful skill in a variety of careers, including business analyst, researcher, statistician, or data scientist.

[Google/University of Illinois' Gies College of Business Dual Credential](#)

Issued by: [Coursera](#)

Issued to: Mark Recio

Issued on: 6 May 2024

Description: Those who earn this dual credential complete the Google Data Analytics Certificate and Gies College of Business Financial Analysis - Skills for Success specialization. After completing the Google Data Analytics Certificate, graduates are competent in data analysis, including transforming, visualizing, and modeling, and after completing the Financial Analysis - Skills for Success specialization, they can assess financial statements, allocate resources, and make strategic decisions.

[Data Analyst Career Guide and Interview Preparation](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Mark Recio

Issued on: 9 February 2025

Description: This badge earner has gained comprehensive knowledge of the data analyst role, career paths, and opportunities. They excel in job search foundations, crafting resumes and portfolios. The earner is well versed in interview nuances, formats, and preparation strategies, excelling in giving compelling interviews and standing out in the job market.

Generative AI Essentials for Data Science

Issued by: Coursera

Authorized by: IBM

Issued to: Mark Recio

Issued on: 6 April 2025

Description: The badge earner understands how to integrate generative AI into data science projects, including data augmentation and feature engineering. The earner has demonstrated proficiency in using Gen AI responsibly and with due consideration. The badge holder has learned different aspects of data processing, such as data preparation, analysis, recording, and model building. They have learned to apply generative AI techniques in developing and refining machine learning models.

Generative AI for Human Resources Specialization

Issued by: Coursera

Authorized by: IBM

Issued to: Mark Recio

Issued on: 8 April 2026

Description: This badge earner is prepared to advance their career in human resources (HR) using generative AI. They have explored the capabilities and applications of generative AI in HR and gained practical skills for using generative AI for different functions in HR. They can design effective prompts to generate relevant output using generative AI tools. They have recognized how generative AI can support strategic aspects of HR and what the key considerations are for implementing generative AI.

ACE TRANSCRIPT LEGEND

The ACE Transcript is an official transcript that contains credentials evaluated by the American Council on Education (ACE). The following policies apply only to ACE-endorsed credentials within the transcript. ACE Learning Evaluations connects workplace learning with colleges and universities by assessing the quality and equivalency of nontraditional experiences. ACE's recommendations are intended to guide institutional decisions about the award of credit for prior learning.

ACE Learning Evaluations reviews are conducted by experienced college and university faculty who assess the content, scope, and rigor of an organization's educational program and make appropriate recommendations for comparable college credit and competencies achieved by learners. For more information on processes and standards for ACE reviews, visit <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Colleges-Universities.aspx>.

DEFINITIONS

Issued On: The date when the learner completed the associated credential.

Issued For: The learner's legal name as entered by the learner at the time of transcript request.

American Council on Education Endorsement: Credentials that carry an ACE endorsement of recommended college credits or validated competencies published on the ACE National Guide.

Course Number (ACE ID): ACE assigns a unique identifier to ACE-endorsed credentials (e.g., ACE-0001 (v.1)). The letter prefix designates the organization providing the experience. Version number is based on the date that the credential was earned.

Credit Recommendations: Contain academic subject area(s) recommended for credit aligning to a college course. Credit recommendations are designated in semester hour units (SH). Levels at which recommendations are issued include vocational/certificate, lower division (100–200 level courses), upper division (300–400 level courses), and graduate (500+ level courses).

Competencies: These competency statements are from recognized, industry-approved frameworks, and have been validated by the faculty team as outcomes demonstrated by learners who successfully complete the evaluated learning experience. They represent workplace-relevant skills, knowledge, and abilities expected of professionals in corresponding industries.

Grade: ACE-endorsed credentials are only included on this official transcript if the student achieved a passing grade. ACE-endorsed courses and exams meet the following minimum grading requirements: Students must earn a minimum grade of C for vocational/certificate, lower division, and upper division credit and a minimum grade of B for graduate-level credit. The credential provider might also supply the learner's actual grade under Evidence in the Learner's badge. Click on the Credential Title to access the badge issued to the learner.

RESOURCES

Additional information on ACE-endorsed educational programs, such as learning outcomes, assessment methods, etc., can be found in the ACE National Guide at <https://www.acenet.edu/national-guide/>. Military training and occupations that carry college credit recommendations can be found in the ACE Military Guide at <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/military-guide-online.aspx>.

YOUR PARTNER FOR EXCELLENCE
IN HIGHER EDUCATION **FIBAA**

FIBAA TRANSCRIPT LEGEND

This transcript contains credentials certified by FIBAA – Foundation for International Business Administration Accreditation. The following policies apply only to FIBAA certified credentials within the transcript. FIBAA certifications support the recognition of prior learning by validating formal learning experiences gained outside European Higher Education Institutions against academic standards in the European Higher Education Area (EHEA), thus supporting learners to apply for and gain recognition of ECTS (European Credit Transfer System) credits when entering an academic programme in Europe.

[FIBAA \(Foundation for International Business Administration Accreditation\)](#) is a European quality assurance agency for higher education and continuing education programmes. Founded in 1994, FIBAA is registered as an accreditation agency in Germany, Austria, Switzerland and further countries in Europe and abroad. In Europe, FIBAA is a member of ENQA (European Association for Quality Assurance in Higher Education) and of CEENQA (Central and Eastern European Network of Quality Assurance) and registered with EQAR (European Quality Assurance Register for Higher Education). On a trans-European level, FIBAA is member of INQAAHE (International Network for Quality Assurance Agencies in Higher Education) and AQAN (ASEAN Quality Assurance Network).

Each FIBAA certification is conducted by a team of experienced university faculty, an expert from professional practice and a qualified student. The panel team assesses the content, scope, and rigor of an organization's educational programme against the standards of the ESG (European Standards and Guidelines), the ECTS Users' Guide and the EQF (European Qualification Framework). The panel team makes appropriate recommendations for comparable ECTS credits and competencies achieved by students. For more information on processes and standards for FIBAA reviews, visit [FIBAA: Certification Procedures](#).

DEFINITIONS

FIBAA Endorsement: Credentials that carry a FIBAA endorsement of recommended ECTS credits are designated by the FIBAA logo in the left margin.

Name: Legal name as entered by the student at the time of transcript request. Because students may complete courses from multiple organizations, each credential also includes the name under which the credential was issued for tracking and verification if necessary.

Issued on: The date when the student completed the associated credential.

Credit Recommendations: Recommendations for credits are designated in ECTS. Each recommendation includes a total number of ECTS credits recommended and an EQF level assignment. Levels for which recommendations are issued include EQF levels 5 (mapping short cycle QF-EHEA), 6 (mapping first cycle QF-EHEA), 7 (mapping second cycle QF-EHEA) and 8 (mapping third cycle QF-EHEA).

Grade: FIBAA-endorsed credentials are only included on this official transcript if the student achieved a passing grade. FIBAA certification includes a validation of the assessments to be conducted by the learners, ensuring the assessments' appropriateness to reach the learning objectives on the assigned EQF level.

Intended EQF-Level: FIBAA certification includes a validation of the intended EQF level of the course to ensure learning objectives on EQF levels 5-8 (mapping the QF-EHEA levels short cycle, first cycle, second cycle, and third cycle, respectively).

RESOURCES

Additional information on FIBAA-endorsed educational programs, such as learning outcomes, assessment methods, etc. can be found at [FIBAA: Certification Procedures](#).

Inquiries: Please address inquiries to FIBAA – Foundation for Internationale Bsinsees Administration Accreditation, Berliner Freiheit 20-24, D-53111 Bonn, Email: info@fibaa.org, Phone: +49(0)228-2803560
